Week 1 – Introduction

 [mycookiebook](#)  [3. Oct 2020](#)  [Allgemein](#)  [Introduction, Topic](#)  [Edit](#)

Hi Cookies,

we are three students, who are passionate about cooking and baking. Therefore we like to get inspired by others and like to try new and different recipes.

Over the time we gathered tons of different recipes, which are scattered. Some are marked in a cookbook, in the mobile phone saved as pictures, written in textmessages or passed on from our grandmother via selfwritten recipes. This creates quite a mess – and probably we are not alone with this problem...

In this case we want to develop a web application ‘MyCookieBook’ which allows us to create and save recipes online where they are always accessible. In addition it is possible to share your favourite recipes with your family and friends. That simplifies spreading the recipes.

With our blog we would like to show you the progress and status of our project.

More details will be published in the following weeks.

Your experiences and suggestions are always welcome in the comments.

Stay tuned,

your CookieBook-Team

Dear CookieBook-Team,

you want to solve a problem which many people have. You have a smart idea to make the recipes available from everywhere (laptop, smartphone, etc). In addition, we like that you want to add an social part, to be able to share his favourite recipes with his friends and family. By reading your idea, we want to ask, if you plan, that the poster of an recipe ist able to add some pictures. These pictures could be in the middle of the cooking

process or how the final product should look like. Another idea that comes to our mind is, that a user should be able to upload some video, there someone can explain how to cook that special food, or if a user has a hint he can post it connected to that recipe.

We are looking forward to hear more from your CookieBook.
Have a nice day.
Greetings, COT-Team

manually written 😊

Hey COT-Team,

thank you for your comment. The idea to add some pictures is great and a part of our plan. But we don't plan to upload vidoes. Instead, links to vidoes can be stored.

Have a nice weekend.

Hey CookieBook-Team,

first of all there are some parts of your Homepage which are not in english, you should change that.

Otherwise I like the idea because I often have the problem not to know what I want to cook. So I think this will be a great opportunity for everyone to share their favorite meals and ideas.

I will follow your blog so i will miss no updates.

Hey TaskHub-Team,

thank you for your comment.

We have read your tip regarding the homepage and have processed it accordingly.
We hope that our application can help you to find new cooking ideas in the future.

Have a nice Weekend
