Midterm

 [mycookiebook](#)  [23. Dec 2020](#)  [Allgemein](#)  [Edit](#)

Hello Cookies,

this is our last blog post for now. That is why we want to take the opportunity to gather all the important information once again.

Testing Files

```
1  > Feature: Edit profile
2
3      This feature file contains several scenarios for the use case 'Edit Profile'
4
5  > Scenario: Edit username
6      Given I am registered user
7      And I am logged in
8      When I navigate to 'Profile'
9      And I select 'Edit'
10     And I enter 'TestUsername' in field with id 'username'
11     And I click button with id 'save'
12     Then I get a success message 'Profile successfully updated' displayed
13     And I get redirected to 'Profile'
14
15 > Scenario: Already existing username
16     Given I am registered user
17     And I am logged in
18     When I navigate to 'Profile'
19     And I select 'Edit'
20     And I enter 'ExistingUsername' in field with id 'username'
21     And I click button with id 'save'
22     Then I get an error message 'This username already exists. Please enter different username' displayed
23     And I get back to 'Edit Profile' page
24
25 > Scenario: Edit Email
26     Given I am registered user
27     And I am logged in
28     When I navigate to 'Profile'
29     And I select 'Edit'
30     And I enter 'test@domain.tld' in field with id 'email'
31     And I click button with id 'save'
32     Then I get a success message 'Profile successfully updated' displayed
33     And I get redirected to 'Profile'
34
35 > Scenario: Invalid Email
36     ⚠ Given I am registered user
```

```
1 package cucumber.stepdefs;
2
3 import ...
4
5
6
7
8 public class EditProfileStepDefs {
9
10     @Given("I am registered user")
11     public void i_am_registered_user() {
12         System.out.println(" I am registered.");
13         // throw new io.cucumber.java.PendingException();
14     }
15
16
17     @And("I am logged in")
18     public void i_am_logged_in() {
19         System.out.println("I am logged in.");
20         // throw new io.cucumber.java.PendingException();
21     }
22
23
24     @When("I navigate to {string}")
25     public void iNavigateToProfile(String dest) {
26         System.out.println("I get on the page Profile.");
27         // throw new io.cucumber.java.PendingException();
28     }
29
30
31     @And("I select {string}")
32     public void iSelectEdit(String sel) {
33         System.out.println("I can edit the profile.");
34         // throw new io.cucumber.java.PendingException();
35     }
36
37
38     @And("I enter {string} in field with id {string}")
39     public void iEnterTestUsernameInFieldWithIdUsername(String testus, String IDus) {
40         System.out.println("I can change my Username.");
41         // throw new io.cucumber.java.PendingException();
42     }
43 }
```

```

I am registered.
I am logged in.
I get on the page Profile.
I can edit the profile.
I can change my Username.
I save my changes.
My changes are accepted.
I get to the page profile again.
I am registered.
I am logged in.
I get on the page Profile.
I can edit the profile.
I can change my Username.
I save my changes.
My changes are declined.
Get back to profile page.
I am registered.
I am logged in.
I get on the page Profile.
I can edit the profile.
I can change my Username.
I save my changes.
My changes are accepted.
I get to the page profile again.
I am registered.
I am logged in.
I get on the page Profile.
I can edit the profile.
Add profile picture.
Choosed picture to upload.
I save my changes.
My changes are accepted.
I get to the page profile again.

6 Scenarios (6 passed)
49 Steps (49 passed)
